Question Name:

Concept: Respondent Use of Technology

Question Text: During this time period, did you use any information technology device such as a tablet, smartphone, computer or laptop?

Universe: All episodes where TUI_01 ne 14,42, or 62

Note: This variable includes only respondents whose primary activity did not already imply a use of technology (TUI_01 ne 14,42,62). Please refer to TECHFLAG for total technology use.

Question Name:

Concept: Use of Technology Flag

Question Text: -

Universe: All respondents

Note: This derived variable indicates whether or not the respondent used technology during any given episode. Since only respondents whose primary activity did not already imply a use of technology were asked TUI_07 (TUI_01 ne 14,42,62), TECHFLAG is used to indicate the total technology use. Respondents who answered TUI_01 = 14,42,62 OR who responded TUI_07 = 1 are set to yes.

Variable Name: TUI_10 **Length:** 2.0 **Position:** 66

Question Name:

Concept: Subjective well-being scale

Question Text: On a scale of -3 to +3 where -3 means very unpleasant and +3 means very pleasant; at [RandomTime] o'clock, how would you rate the activity you were doing?

Universe: All episodes randomly selected for the subjective well-being scale

Note: Two times were randomly selected for each respondent who completed the Time Use diary. TUI_10 was triggered when the time range of the current episode included one or both of these times. In most cases TUI_10 was triggered twice. However, in cases where the time range of an episode covered both randomly selected times, the question was only triggered once.
