

measured occupiable-area shares per tower prototype

occupiable 107,816.0 m2

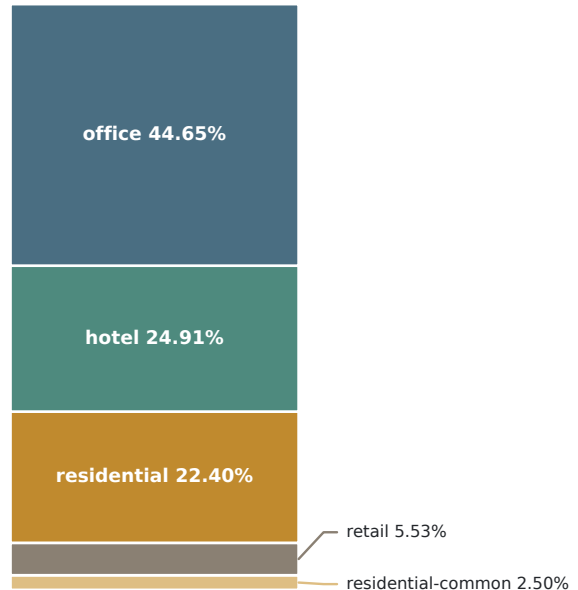

gross 135,857.6 m2

SuperTall

occupiable 57,075.4 m2

gross 72,623.1 m2

Tall

Service/MEP

20.6% of gross (SuperTall) / 21.4% of gross (Tall) -- share of GROSS floor area, not occupiable

Corrected 2026-07-31 (Default 7) parse, from Sigma FloorArea x Multiplier on IsPartOfTotalArea = 1, reproducing EnergyPlus Total Building Area exactly. Superseded figures (40,846 m2 SuperTall / 26,750 m2 Tall) were 2.7 to 3.3x too small and shifted every EUI proportionally.
